

BUDTENDER BOB'S MANDARIN LIME ORANGE JELL-O SLICES

Ingredients:

- 5 oranges
- 1 package (6 oz.) Orange JELL-O Gelatin
- 1 bottle Mandarin Lime ZootDrops (100mg THC)

Directions:

Cut oranges in half and scoop out the flesh from each half, being careful not to tear the peel. Make the JELL-O according to instructions on package. Pour prepared JELL-O liquid into each orange half, nearly to the top. (Helpful hint: use a cupcake pan to keep the orange halves steady as you pour the liquid in.) Add one teaspoon of ZootDrops (10mg THC – adjust as desired) into each orange half and stir gently. Place the orange halves into the fridge for several hours. Once JELL-O has set, cut each orange half into two and place in freezer for 3-5 minutes. Remove from freezer and cut again into individual slices.

Makes: 10 servings
